

English Language Instructor

Korea

It is with great interest that I submit my application for the position of English Language Instructor. As a highly skilled and qualified EFL educator with over a decade of experience in the South Korean education system, I am confident that my background in curriculum development and second language acquisition aligns with the goals of your institution.

My professional profile is built on a strong foundation of academic rigor, classroom expertise, and corporate leadership. My Master of Education in Second Language Acquisition from the University of Ottawa provides a deep theoretical understanding of how students internalize new languages, allowing me to implement evidence-based teaching strategies. This is complemented by more than ten years of hands-on experience in the Korean public school system, where I have established a proven track record of engaging diverse student populations through student-centered activities. Furthermore, my eight years of experience in training and development within the Canadian corporate sector has equipped me with unique organizational and leadership skills that allow me to contribute effectively to administrative and team-based projects.

Throughout my career, I have focused on planning and executing comprehensive English programs for all proficiency levels, with a specific emphasis on adaptable culturally responsive curricula that serve students from varied urban and rural backgrounds. I have also had the privilege of serving as a guest lecturer for in-service and pre-service teachers, sharing strategies to optimize co-teaching dynamics and strengthen the EFL classroom. By successfully working alongside local and international peers to develop innovative programs, I have consistently earned positive feedback from both students and colleagues alike.

Beyond my practical experience, I bring creativity, passion, and a high degree of adaptability to every role. I am eager to bring this energy to your team and help your students develop the communication skills necessary for success in a globalized world.

Thank you for your time and consideration.

Sincerely,
