

Dear hiring team,

My name is Eli and I am currently teaching in Korea at an English Experience Center serving elementary students. I am seeking a new opportunity beginning in August 2026 and would be excited to continue working within a school-based educational environment.

Over the past year, I have gained experience teaching a wide range of student levels and classroom types, including: school-classroom sessions, after-school programs, activity-based lessons, and seasonal camps. Because experience center classes rotate frequently, I have become comfortable adapting lessons quickly, managing different classroom dynamics, and working collaboratively with Korean co-teachers and staff.

One aspect of teaching in Korea that I have especially enjoyed is creating engaging lessons that help students feel more comfortable participating in English. I enjoy balancing structured learning with interactive activities, games, and speaking practice, while still maintaining a calm and supportive classroom environment.

Living and working in Korea has also helped me become more flexible, independent, and familiar with the expectations of Korean schools and workplaces. I value clear communication, professionalism, and creating a positive atmosphere for students.

I would be grateful for the opportunity to continue developing my teaching experience and contribute positively to a school community. Thank you for your time and consideration, and I look forward to hearing from you.

Sincerely,
Eli

6501

Skills

Software implementation, Business analysis, CRM implementation, Cross-functional team leadership, Innovation management, Data migration

Certifications
