Dear Hiring Manager/Coordinator,

With teaching experience, a TEFL qualification, and a strong interest in education and cultural exchange, I am excited about the opportunity to teach and grow professionally in South Korea.

My motivation for becoming an English teacher comes from enjoying meaningful communication and helping students build confidence through language learning. I find it rewarding to support students as they become more comfortable expressing themselves and overcome the fear of making mistakes. I aim to create a positive and engaging classroom environment where students feel encouraged to participate actively and develop practical communication skills rather than simply memorising material.

Through my three years of teaching experience, I have developed strong skills in interpersonal communication, lesson planning, classroom management, and adapting lessons to suit different learning styles and abilities. I understand the importance of patience, consistency, and creating a supportive learning atmosphere, particularly for students who may initially lack confidence when speaking English. I believe these qualities are essential for building positive relationships with students and maintaining an effective classroom environment.

I am particularly interested in teaching in the South Korean South Korea do region, as well as neighbouring areas, due to the balance between urban life and community atmosphere, alongside the opportunities for professional and personal growth. Having previously lived and worked in South Korea, I am confident adapting to new environments and motivated to contribute positively both inside and outside the classroom.

I believe my enthusiasm for teaching, willingness to continue learning, and professional attitude would allow me to make a valuable contribution to your school. I would greatly appreciate the opportunity to further discuss my application and suitability for the position.

Sincerely,

ABOUT ME

I am a degree educated, qualified EFL teacher. I am a hardworking, dedicated worker who works well under pressure and consistently takes on challenges. I enjoy inspiring and engaging with a class of students. I work well in a team and can communicate effectively at all levels and ages, in both formal and informal situations.

EXPERIENCE

During paid employment (South Korea)

Designed curriculum responsive to individual students' needs throughout dozens of sessions.

Arranged activities and designed goals to guide and cultivate critical thinking skills.

Guided associates towards academic and career success through clear and concise instructions.

During volunteer work

Developed practical and emotional support methods to assist in the personal development of associates.

Shaped consistent academic attendance and productivity for participants.

Elevated participants' academic performance through proper guidance.

Direct contact with students' parents, improving interpersonal relations and matching the parents' goals for their children.
