Seoul, Seocho

August, High school position

Dear Hiring Committee,

I am writing to express my interest in the English Language Teacher position at your school. With over five years of teaching experience in South Korea, primarily at Daewon Foreign Language High School, and a strong academic background in English language education, I am confident in my ability to contribute meaningfully to your English program and support students' linguistic and personal growth.

During my time at Daewon Foreign Language High School from 2019 to 2024, I taught approximately 250 students per year across ten English conversation classes. My work included designing and delivering daily lessons on topics such as consumerism, endangered species, archaeology, and environmental issues. I consistently incorporated differentiated instruction, multimodal learning, and scaffolded activities to support students with varying proficiency levels. I also created original teaching materials, administered and graded various assessments, and maintained accurate academic records. These responsibilities strengthened my classroom management skills and reinforced my commitment to fostering an inclusive, respectful, and engaging learning environment.

In addition to my core teaching role, I served as a Global Leadership Program instructor from 2020 to 2023, where I taught advanced, discussion-based literature courses for highly motivated students. These classes focused on intersectionality, marginalized authors, rhetoric, poetry, plays, fiction, and nonfiction. Through seminar-style instruction, I helped students develop critical thinking, analytical writing, and academic discussion skills. This experience deepened my ability to guide students through complex texts and support them in expressing nuanced and their individual ideas in English.

My professional qualifications include a CELTA certification from Cambridge University and ongoing graduate studies in Elementary Education at Holy Family University, where I maintain a 4.0 GPA. Through the program at Holy Family University, I have strengthened my skills in scaffolding instruction, breaking down complex concepts into accessible steps, designing structured routines, and creating supportive, student-centered learning environments. In addition, I have developed my skills in English phonics, structured writing development, and reading comprehension strategies better allowing me to apply these principles to support English language learners at the high-school level build confidence and mastery in English. I also hold an M.A. in English Language Education from Korea University, where I studied TESOL methodology, linguistics, curriculum design, and language assessment. Together, these academic experiences complement my practical teaching background and enable me to design developmentally appropriate, research-based lessons that meet students' diverse learning needs and English levels.

Beyond the classroom, my work with Educational Testing Service strengthened my attention to detail, organizational skills, and ability to manage large volumes of data and documentation—skills that translate directly to maintaining accurate student records and supporting school operations. My ESL internships at SUNY Buffalo and Korea University further developed my ability to provide individualized feedback and support learners from diverse linguistic and cultural backgrounds.

I am deeply committed to helping students build confidence, curiosity, and communicative competence in English. Having lived and worked in South Korea for nearly a decade, I understand the educational environment, cultural expectations, and the importance of building strong relationships with students, colleagues, and the school community.

Thank you for considering my application. I would welcome the opportunity to contribute to your school and support your students' academic and personal development. I look forward to the possibility of discussing how my experience and qualifications align with your needs.

Sincerely,
Domenica Kempisty
