CAREER PROFILE

- I have some professional and ethical assurance due to my years of experience as a financial advisor and financial assistant, wherein I dealt with private and business financial needs through financial compliance and risk analysis on client and business investment being attracted into the company. It is indeed very crucial for a financial institution to adhere to the country's financial laws and regulations also monitoring of all operational processes and procedures using a certain compliance management platform to ensure that the company complies with all the legal financial regulations and ethical standards. Leveraging creative problem-solving and keen attention to details to complete project-based work on time and reporting accuracy and faster decision making. Seeking a financial role in accounting/finance to build my career and to contribute positively to the company's vision.

OTHER SKILLS AND COMPETENCIES

- Financial administrative knowledge
- Ability to adapt, ready to change in system and procedure
- Ability to work independently and high attention to details
- solid work ethic
- conscientious, accountable and committed
- Communication skills: Good communication skills gained through technical presentations, seminars, workshops and conferences
- Computer literacy (MS office).
- Administrative skills
- Fast learner and ability to adapt
- Ability to function independently without constant supervision
- Good interpersonal skills
- Innovative, logical (open-minded) and always optimistic
