ESL NATIVE TEACHER SINCE **raduate** 2023

PROFILE

I am a highly competent being who values knowledge and the power it gives. I always strive to execute whatever I do to the best of my ability and I adhere to work ethics quite effortlessly. I also am very organized and detail orientated.

My experience as an ESL teacher in Korea has broadened my values and ideas about teaching as a whole and I have grown to love teaching even more because of it. In my time here I've learnt quite a lot about the school systems in Korea which I believe is an advantage and with that knowledge I trust I will be able to execute my duties with the highest quality service there is.
